Canonading Today.

Infrequent canonading at long range continued today. The state troops showed no disposition to continue a concentrated assault on Ojeda's position. Descritons by scores from the "Constitutionalist" ranks are reported, the officers apparently having no control of the men. Many are crossing to the Arizona side, teiling the officers of the United States border patrol that they are returning to their homes. Gen. Ojeda's federals in general remain stanuchly with their commander.
